

To Whom It May Concern,

Dave Norris and I knew each other in grade school and had not seen each other in over thirty years. In the summer of 2006, I had the great fortune of being reacquainted with him.

Our paths crossed again at Old Cowtown Museum where I participate with one of the volunteer groups. That day we were reenacting an 1860's baseball game and Dave and his future wife had come out to watch. We asked him to volunteer with us, he accepted, and fortunately for our organization he joined our ranks. He's been such a dedicated member; we elected him as our President for this season.

Speaking for the Cowtown Vintage Base Ball Club and myself personally, we are extremely grateful for the hard work that he has put into leading our group. Dave is very thoughtful, professional, articulate and dedicated to the position that he was unanimously elected to. There is a great deal of work that goes into coordinating volunteers, planning, scheduling and special events. Dave has always managed these tasks, enlisting and inspiring others and leading by example.

In closing, I would gladly recommend Dave for a position with your organization. I'm sure he would add those same qualities to any assignment. Please contact me if you require further information.

Sincerely,
Gary Lee
